1 INTRODUCTION

Sequoia Economic Infrastructure Income Fund Limited is a Guernsey-incorporated closed-ended investment company whose Ordinary Shares are traded on the Main Market of the London Stock Exchange. The Company's investment strategy is to provide shareholders with long-term distributions by owning debt exposures to economic infrastructure projects across a diversified range of jurisdictions, sectors and sub-sectors. The Company targets an ongoing dividend equivalent to 6.25 pence per Ordinary Share per annum. To the extent that the Company's NAV per Ordinary Share continues to increase in the near term, the Directors will consider whether it is appropriate to increase the dividend. A further announcement will be made if any changes to the Company's dividend policy are made. No changes to the Company's existing dividend policy are expected to be made ahead of the closing of the Initial Issue (as described below).

The IPO of the Company took place on 3 March 2015, raising gross proceeds of approximately £150 million in an oversubscribed issue. During the course of the next five years, the Company has carried out a further eight equity issues, which have raised in excess of £1.285 billion of gross proceeds. The net proceeds of the IPO and each of the subsequent issues were, after accounting for costs and expenses, substantially invested in accordance with the Company's investment objective and policy.

In addition to the equity which the Company has raised, the Company announced on 6 December 2017 that it had entered into a multi-currency Revolving Credit Facility of £100 million with the option of drawing down an accordion tranche which provided an extra £50 million if required (subject to the satisfaction of certain conditions). On 10 May 2019 the Company agreed a further tranche resulting in the overall size of the Revolving Credit Facility being increased to £200 million. On 13 December 2019 the Company agreed a further tranche, increasing the size of the Revolving Credit Facility to £280 million. The term of the Revolving Credit Facility was for three years, from 6 December 2017 (which has been extended by a year to 6 December 2021) with a borrowing cost of 210 basis points over LIBOR. The Revolving Credit Facility enables the Company to reduce cash drag by buying assets through the use of leverage with the intention to pay this down in the future through the proceeds of equity issuances.

The proceeds of the 2019 Fundraisings were used to repay an aggregate of £306.7 million of drawings under the Revolving Credit Facility in June and September 2019. Since then the Company has used the Revolving Credit Facility to make investments as and when suitable investment opportunities have been identified. As at 7 February 2020 the Company had drawn approximately £225 million under the Revolving Credit Facility.

As at 10 February 2020, the Company is invested in a portfolio which is spread over 74 investments across the UK, Europe, Australia, New Zealand and the U.S. These investments are spread across 8 sectors

and 30 sub-sectors (as at 10 February 2020). The Company has been able to deploy proceeds ahead of their deployment targets in relation to the IPO and all subsequent equity issues and, encouragingly, the Investment Adviser continues to see a growing and attractive pipeline of investment opportunities.

Since incorporation the Company has paid an aggregate of 26.125 pence per Ordinary Share in dividends. The Company intends to continue to pay dividends in relation to the Ordinary Shares on a quarterly basis.

The unaudited NAV of the Company was 106.32 pence per Ordinary Share as at 31 December 2019.

The proposed Initial Issue

On 20 January 2020, the Board announced that it was considering raising new capital in order to repay the amounts drawn on its Revolving Credit Facility and thereafter to invest in further investment opportunities in accordance with the Company's investment policy. The Board values the support provided to it from its existing Shareholders and as such it intends to include a material element of pre-emption in the equity issue. The Company has today announced that it intends to proceed with the Open Offer, Placing and Offer for Subscription for a target issue of £250 million equivalent to 223,214,285 new Ordinary Shares at an issue price of 112.0 pence per Ordinary Share under the Initial Issue. Under the terms of the Open Offer, up to 184,908,574 Ordinary Shares will be made available to existing Qualifying Shareholders on the basis of 2 new Ordinary Shares for every 15 existing Ordinary Shares held. The Board may increase the size of the Initial Issue by up to a maximum of 44,642,857 additional new Ordinary Shares if they, in consultation with Jefferies and the Investment Adviser, believe there is sufficient investor demand and assets available and suitable for investment. Where the size of the Initial Issue is increased above 223,214,285 new Ordinary Shares, the maximum aggregate number of Ordinary Shares available for issuance under the Share Issuance Programme shall be reduced by the amount of such increase. There is no certainty that the maximum number of Ordinary Shares will be issued, even if sufficient demand exists. The Company will seek admission of the new Ordinary Shares to be issued under the Initial Issue to the premium segment of the Official List and to trading on the Main Market. The minimum net proceeds of the Initial Issue are £100 million. The costs of the Initial Issue borne by the Company are expected to be approximately 1.4 per cent. of the Gross Issue Proceeds assuming a £250 million equity raise. Further details of the Initial Issue are included in the Prospectus. The Investment Adviser is confident any net proceeds of the Initial Issue (including any reallocation from the Share Issuance Programme) after the repayment of the Revolving Credit Facility will be deployed shortly after Initial Admission.

The proposed Share Issuance Programme

The Company also intends to put in place a share issuance programme with the flexibility to issue up to a further 300 million Ordinary Shares (less any Ordinary Shares reallocated to the Initial Issue) at an issue price calculated by reference to the prevailing Net Asset Value per Ordinary Share at the time of issue together with a premium. The Share Issuance Programme is flexible and may have a number of closing dates in order to provide the Company with the ability to issue Ordinary Shares on appropriate occasions over a period of time. The Share Issuance Programme is intended to satisfy market demand for the Ordinary Shares and to raise further money for investment in accordance with the Company's investment policy.

The net proceeds of the Share Issuance Programme are dependent on the number of Ordinary Shares issued pursuant to the Share Issuance Programme. On the assumption that the Company issues the maximum number of Ordinary Shares available for issue under the Share Issuance Programme at an average price, for illustrative purposes only, of 112.0 pence per Ordinary Share, the gross proceeds from the Share Issuance Programme will be approximately £336 million and the expenses payable by the Company in relation to the Share Issuance Programme including the costs of establishment and publication of the documentation of the Share Issuance Programme, fees and commissions and registration and Share Issuance Programme Admission fees are estimated at approximately £3.5 million, resulting in net proceeds of approximately £332.5 million.

Accordingly and in compliance with the Companies Law and the Listing Rules, the Board is seeking Shareholder approval in connection with certain matters relating to the proposed Initial Issue and Share Issuance Programme. An EGM of the Company is being convened at which Shareholders will be asked to approve:

- (A) the disapplication of pre-emption rights in respect of up to 223,214,285 Ordinary Shares for the purposes of the Initial Issue ("**Resolution 1**"); and

- (B) the disapplication of pre-emption rights in respect of up to 300,000,000 Ordinary Shares for the purposes of the Share Issuance Programme ("**Resolution 2**").

The proposed Initial Issue is conditional upon, amongst other things, the Company obtaining Shareholders' approval of Resolution 1. The proposed Share Issuance Programme is conditional upon, amongst other things, the Company obtaining Shareholders' approval of both Resolution 1 and Resolution 2.

The new Ordinary Shares to be issued pursuant to the Initial Issue will have the rights attaching to the Ordinary Shares and will rank pari passu with the outstanding Ordinary Shares in issue on the date the new Ordinary Shares are issued. For the avoidance of doubt, the new Ordinary Shares to be issued pursuant to the Initial Issue will carry rights to any dividend in respect of the quarter ending 31 March 2020 which will be declared in April 2020, after the closing of the Initial Issue.

The proposed scrip dividend mandate

The Board is seeking Shareholder approval to implement a scrip dividend scheme. This scheme will allow the Company, subject to such terms and conditions as the Board may determine, to offer to any holders of Ordinary Shares (excluding any member holding Ordinary Shares as treasury shares) the right to elect to receive Ordinary Shares credited as fully paid, instead of cash in respect of the whole (or some part to be determined by the Directors), of any dividend. The Directors believe that the ability for Shareholders to elect to receive future dividends from the Company wholly or partly in the form of new Ordinary Shares rather than in cash is likely to benefit both the Company and certain Shareholders. The Company would benefit from the ability to retain cash which would otherwise be paid as dividends. Shareholders who qualify can also increase their shareholdings in the Company without incurring dealing costs or paying stamp duty reserve tax. Furthermore the Board has been advised that under current UK law and HM Revenue & Customs practice, certain UK-resident Shareholders may be able to treat Scrip Dividend Shares as capital for tax purposes.

The decision whether to offer such a scrip dividend alternative in respect of any dividend will be made by the Directors at the time the relevant dividend is declared. In order to have the flexibility to offer scrip dividends and in compliance with the Companies Law and the Listing Rules, Shareholder approval is being sought to offer to any holders of Ordinary Shares (excluding any member holding Ordinary Shares as treasury shares) the right to elect to receive Ordinary Shares credited as fully paid, instead of cash in respect of the whole (or some part to be determined by the Directors) of all or any dividends declared or paid during the period from the date here of and ending prior to the date of the annual general meeting of the Company to be held in 2022, on such terms as the Directors may determine ("**Resolution 3**").

Further details about any available scrip dividend alternative will be provided to Shareholders at the time of declaration of dividends.

The proposed Initial Issue and the proposed Share Issuance Programme are not conditional on the passing of Resolution 3.

The purpose of this document is to provide Shareholders with details of, and to seek Shareholder approval for, the Resolutions. This document includes a notice of the EGM to be held at 2:00 p.m. on 25 February 2020 at Sarnia House, Le Truchot, St Peter Port, Guernsey, GY1 1GR.

2 BACKGROUND TO AND RATIONALE FOR THE INITIAL ISSUE AND SHARE ISSUANCE PROGRAMME

2.1 Benefits of the Initial Issue

The Investment Adviser continues to see significant opportunities in the economic infrastructure debt market. The Board believes that it would be in the interests of the Company to raise further funds to take advantage of these opportunities. Specifically, the Directors believe that the Initial Issue will have the following benefits:

- (A) providing the Company with the funds to fully repay the funds drawn down under the Revolving Credit Facility which will allow the Company to re-draw funds under the facility as and when investment opportunities arise without incurring cash drag;
- (B) allowing the Company, following repayment of the Revolving Credit Facility, to invest further capital in the Company's identified pipeline opportunities which should enable the Group to further diversify its existing portfolio;

- (C) creating the potential to enhance the NAV per Ordinary Share of the existing Ordinary Shares through the issuance of Ordinary Shares at a premium to NAV per Ordinary Share, after the related costs have been deducted;
- (D) spreading the Company's fixed running costs across a wider base of shareholders, and benefiting from the reducing scale of charges for the Investment Adviser, thereby reducing the Company's ongoing charges;
- (E) increasing the size of the Company which should help make the Company more attractive to a wider audience of investors and improve market liquidity in the Ordinary shares;
- (F) increasing the size of the Company which should help make the Company more attractive as a lender to borrowers offering the Company better access to pipeline opportunities; and
- (G) through the Open Offer, allow existing Shareholders to participate in the Initial Issue on a pre-emptive basis.

The Directors believe that the Investment Adviser has developed a strong presence in the economic infrastructure debt market through its activity since the inception of the Company as well as its prior experience in the sector. The economic infrastructure market is a large market and in 2018 was estimated to be approximately 14.8 times larger than the social infrastructure market.

By investing in debt, as opposed to equity of economic infrastructure projects, the Investment Adviser is able to focus on projects that have an equity cushion of typically at least 20 per cent.. The Directors believe that this provides the Group with a lower risk profile than equity infrastructure investments. However the Group is still able to access investments with "equity-like" infrastructure return profiles. The current yield to maturity (or Yield to Worst) on the existing portfolio is approximately 8.2 per cent. as at 31 December 2019. The Investment Adviser has identified potential near-term investments with a total value in excess of £380 million.

2.2 Benefits of the Share Issuance Programme

The Share Issuance Programme is being created to provide the Company with flexibility should it wish to raise further capital as new investment opportunities arise over the next 12 months to either repay any future drawn down funds under the Revolving Credit Facility or to directly invest in new investment opportunities. The Directors believe that instituting the Share Issuance Programme and the ability to issue further Ordinary Shares under it will:

- (A) enable the Company to raise additional capital quickly through an equity issuance in order to (i) repay the Revolving Credit Facility when it becomes fully or substantially drawn and/or (ii) invest in opportunities identified in the future with the aim of keeping the Company in a position where it has available cash to invest in investment opportunities as and when they become available;
- (B) create the potential to enhance the NAV per Ordinary Share of existing Ordinary Shares through new share issuance at a premium to NAV per Ordinary Share, after the related costs have been deducted;
- (C) grow the Company, thereby spreading operating costs over a larger capital base, and benefiting from the reducing scale of charges for the Investment Adviser, which should reduce the Company's ongoing charges;
- (D) partially satisfy market demand from time to time for Ordinary Shares and improve liquidity in the market for the Ordinary Shares; and
- (E) increasing the size of the Company which should help make the Company more attractive as a lender to borrowers offering the Company better access to pipeline opportunities.

2.3 Risks of the Initial Issue and Share Issuance Programme

There are risks associated with the Initial Issue and the Share Issuance Programme. The Directors believe that the key risks relating to the Initial Issue and the Share Issuance Programme include the following:

- (A) the percentage holding of an existing Shareholder will be diluted to the extent that they do not participate in the Initial Issue and/or the Share Issuance Programme. Where a Shareholder does not participate in the Placing or in the Offer for Subscription and the Initial Issue is fully

- subscribed but the Shareholder: (i) takes up his full entitlement under the Open Offer assuming the target Initial Issue size, the dilution of the percentage holding for an existing Shareholder would be approximately 2.4 per cent.; or (ii) does not participate in the Open Offer, such an existing Shareholder's percentage holding will be diluted by approximately 13.9 per cent. assuming the target Initial Issue size. Where 223,214,285 Ordinary Shares are issued under the Initial Issue and 300,000,000 Ordinary Shares are issued under the Share Issuance Programme (being the maximum number of Ordinary Shares available under the Share Issuance Programme), and a Shareholder does not participate in the Initial Issue or the Share Issuance Programme, there would be a dilution of approximately 27.4 per cent. in such Shareholder's voting control of the Company;
- (B) should market conditions change, if there is a deterioration in the Investment Adviser's pipeline or if the Investment Adviser is unable to deploy proceeds into suitable opportunities, Shareholders may experience "cash drag" which may impact the Company's ongoing dividend target;
- (C) an active and liquid trading market for the Ordinary Shares may not be maintained. The Company cannot predict the effect on the price of the Ordinary Shares if a liquid and active trading market for the Ordinary Shares is not maintained;
- (D) the market price of the Ordinary Shares may fluctuate significantly and investors may not be able to sell their Ordinary Shares at or above the price at which they purchased them, meaning that they could lose all or part of their investment; and
- (E) the Ordinary Shares could trade at a discount to the Net Asset Value per share. There is no guarantee that any attempts by the Company to mitigate such a discount will be successful, nor that the use of discount control mechanisms will be possible or advisable.

RESOLUTIONS

The Resolutions require the approval of Shareholders at the EGM. In order to be passed, the Resolutions to be proposed as:

- an ordinary resolution at the EGM will require the approval of Shareholders representing over 50 per cent. of the votes cast at the EGM; and

special resolutions at the EGM will require the approval of Shareholders representing at least 75 per cent. of the votes cast at the EGM.

Resolutions 1 and 2

The Articles contain pre-emption rights in respect of the allotment or sale for cash of "equity securities" (which include Ordinary Shares or rights to subscribe for or to convert securities into Ordinary Shares), which can be disapplied by way of a special resolution. The pre-emption rights have been disapplied up to an aggregate amount not exceeding 10 per cent. of the Ordinary Shares in issue at the annual general meeting in 2019 until the conclusion of the next annual general meeting of the Company in 2020 (the "**General Disapplication**"), of which a substantial part was used in connection with the placing of new Ordinary Shares by the Company which completed on 24 September 2019. The Directors intend to request that the authority to allot a specified amount of Ordinary Shares from time to time is renewed at the next annual general meeting of the Company and, thereafter, at each annual general meeting of the Company.

Resolution 1 proposes that the pre-emption rights are disapplied in accordance with the Articles in respect of up to 223,214,285 Ordinary Shares in respect of the Initial Issue and Resolution 2 proposes that the pre-emption rights are disapplied in accordance with the Articles in respect of up to 300,000,000 Ordinary Shares in respect of the Share Issuance Programme. For the avoidance of doubt, this authority is additional to and exclusive of the General Disapplication.

The Directors confirm that up to 223,214,285 Ordinary Shares shall be allocated to the Initial Issue (plus the option to re-allocate up to 44,642,857 Ordinary Shares from the Share Issuance Programme to the Initial Issue if the Initial Issue is oversubscribed). The Resolutions will not affect the General Disapplication.

Notwithstanding the disapplication of pre-emption rights, the Directors recognise the importance of existing Shareholders' protections and consequently the Initial Issue is being structured to include a material element of pre-emption via the Open Offer on the basis of 2 new Ordinary Shares for every 15 existing Ordinary Shares.

As indicated above, Resolution 2 proposes that the pre-emption rights are disapplied in accordance with

the Articles in respect of up to 300,000,000 Ordinary Shares. The Directors confirm that up to 300,000,000 Ordinary Shares (less any Ordinary Shares reallocated to the Initial Issue up to a maximum of 44,642,857 Ordinary Shares) shall be allocated to the Share Issuance Programme.

The allotment of Ordinary Shares pursuant to the Share Issuance Programme is at the discretion of the Directors and may take place at any time prior to the final closing date of 9 February 2021. If any issuance under the Share Issuance Programme takes the form of a Further Placing, an announcement in respect of the relevant placing of Ordinary Shares will be released through a Regulatory Information Service, including details of the number of Ordinary Shares issued and the applicable issue price. If any issuance under the Share Issuance Programme takes the form of an open offer or offer for subscription, the Company will be required to publish a Future Securities Note and Future Summary.

Both the Initial Issue and any issues under the Share Issuance Programme will be NAV accretive.

Resolution 3

Resolution 3 seeks Shareholder approval to offer to any holders of Ordinary Shares (excluding any member holding Ordinary Shares as treasury shares) the right to elect to receive Ordinary Shares credited as fully paid, instead of cash in respect of the whole (or some part to be determined by the Directors) of all or any dividends declared or paid during the period from the date here of and ending prior to the date of the annual general meeting of the Company to be held in 2022, on such terms as the Directors may determine.

Further details about any available scrip dividend alternative will be provided to Shareholders at the time of declaration of dividends.

The proposed Initial Issue and the proposed Share Issuance Programme are not conditional on the passing of Resolution 3.

NOTES:

Proxies

1. A shareholder is entitled to appoint another person as his proxy to exercise all or any of his rights to attend and to speak and vote at the EGM. A shareholder may appoint more than one proxy in relation to the EGM provided that each proxy is appointed to exercise the rights attached to a different share or shares held by that shareholder. A proxy need not also be a shareholder of the Company.
2. Shareholders will find enclosed a form of proxy for use in connection with the EGM (and any adjournment). The form of proxy should be completed in accordance with the instructions. To be valid, the form of proxy (together with the power of attorney or other authority, if any, under which it is executed or a notarially certified copy of such power or authority) must be deposited at the offices of the Company's Registrars, c/o The Pavilions, Bridgwater Road, Bristol BS99 6ZY or at the email address: info@computershare.co.gg or by fax to +44(0)370 873 5851 by 2:00 p.m. on 21 February 2020. Where a form of proxy is given by email or fax the power of attorney or other authority, if any, under which it is executed or a notarially certified copy of such power or authority must be deposited at the offices of the Company's Registrars at the above address by the appointed time. A space has been included in the form of proxy to allow shareholders to specify the number of shares in respect of which that proxy is appointed. Shareholders who return the form of proxy duly executed but leave this space blank will be deemed to have appointed the proxy in respect of all of their shares. Shareholders who wish to appoint more than one proxy in respect of their shareholding should contact the Company's Registrar, Computershare Investor Services PLC on their helpline number: 0370 707 4040 from within the UK or on +44 370 707 4040 if calling from outside the UK for additional forms of proxy, or you may photocopy the form of proxy provided with this document indicating on each copy the name of the proxy you wish to appoint and the number of ordinary shares in the Company in respect of which the proxy is appointed. All forms of proxy should be returned together in the same envelope.
In the case of joint holders, any one holder may vote. If more than one holder is present at the meeting, only the vote of the senior will be accepted, seniority being determined in the order in which the names appear on the register of shareholders of the Company.
3. To allow effective constitution of the meeting, if it is apparent to the Chairman that no shareholders will be present in person or by proxy, other than by proxy in the Chairman's favour, then the Chairman may appoint a substitute to act as proxy in his stead for any shareholder, provided that such substitute proxy shall vote on the same basis as the Chairman.

Corporate representatives

4. Corporate shareholders may by resolution of its board or other governing body, authorise such person or persons as it thinks fit to act as its representative at the EGM. Where a person is authorised to represent a corporate shareholder, he may be required to produce a certified copy of the resolution from which he derives his authority.

Right to attend and vote

5. To be entitled to attend and vote at the EGM (and for the purpose of the determination by the Company of the votes they may cast), shareholders must be registered in the register of members of the Company at 6:00 p.m. on 23 February 2020 or, in the event of any adjournment, 6:00 p.m. on the date which is two days before the time of the adjourned meeting. Changes to entries on the register of shareholders after the relevant deadline shall be disregarded in determining the rights of any person to attend and vote at the extraordinary general meeting.

CREST members

6. CREST members who wish to appoint a proxy or proxies by utilising the CREST electronic proxy appointment service may do so for the EGM (and any adjournments thereof) by utilising the procedures described in the CREST Manual. CREST Personal Members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s) should refer to their CREST sponsor or voting service providers, who will be able to take the appropriate action on their behalf.
7. In order for a proxy appointment made by means of CREST to be valid, the appropriate CREST message (a CREST Proxy Instruction) must be properly authenticated in accordance with Euroclear UK & Ireland Limited's specifications and must contain the information required for such instructions, as described in the CREST Manual. The message must be transmitted so as to be received by the Registrar, by the latest time for receipt of proxy appointments specified in this notice of EGM. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the issuer's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST.
8. CREST members and, where applicable, their CREST sponsors or voting service providers should note that Euroclear UK & Ireland Limited does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider, to procure that his

CREST sponsor or voting service provider takes) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning limitations of the CREST system and timings. The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 34 of the Uncertificated Securities (Guernsey) Regulations 2009.
